Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 586 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 586 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner initiated a telephonic interview with the Applicant's representative, Ms. McConathy (Reg. No. 35,279), in order to request Exhibit 1 and Exhibit 2 which were not provided in the Request for Continued Examination with the Declaration dated 2/24/2010. Ms. McConathy thereafter provided the Examiner with the two Exhibits which the Declaration discusses and uses for support. The two Exhibits have been attached to this Office Action. After the Examiner read through the Declaration under 37 C.F.R. 1.131 with the support of the two provided Exhibits, the Examiner found such a Declaration to be sufficient to overcome the Borgefors ("Fuzzy border distance transforms and their use in 2D skeletonization" - August 2002, as applied in previous Office Action) reference.

Thereafter, the Examiner proposed an Examiner's Amendment to expedite prosecution. The Examiner proposed removing the limitation "lung airways" from independent claim 1 in order for the claim to gain priority to the earlier effective filing date. Also, the Examiner proposed removing the limitation "evaluating or diagnosing bone disease in a subject by" from independent claim 17 in order for the claim to gain priority to the earlier effective filing date. The entire proposed amendments have been attached to this Office Action. Both the Applicant and the Examiner agreed to such proposed amendments. Therefore the Examiner has moved forward with an Allowance by way of an Examiner's Amendment.

It was further noted by the Examiner to Ms. McConathy that dependent claims 8 and 14 didn't receive priority to the earlier effective filing date because the earlier priority document didn't have support for a target object in or from "an animal"; that dependent claim 16 didn't receive priority to the earlier effective filing date because the earlier priority document didn't have support for "calculating average" thickness distribution; that dependent claims 22-24 didn't receive priority to the earlier effective filing date because the earlier priority document didn't have support for "evaluating or diagnosing bone disease in a subject" and "selecting a therapy based on the diagnosis or evaluation of bone disease in the subject" and "administering said therapy to the subject" and "monitoring a progression or regression of bone disease in the subject, during or at one or more times after administering the selected therapy".

Since the proposed independent claims have priority to the earlier effective filing date and are deemed to be allowable, all dependent claims are allowable by way of allowance of the independent claims.
